

Newest flavour from Stimorol

This winter, Stimorol is launching its new limited edition Berry Party chewing gum [video].

As part of its launch, Stimorol has a new TV advertising campaign and a competition offering a set of double tickets to the 'See What Unfolds Music Experience', coming up later in the year, with a fusion of South African acts and a surprise international artist on the same stage.

By simply purchasing any pack of Stimorol Chewing Gum and SMSing the last four digits of the barcode to 45567, Stimorol fans stand a chance to win awesome instant prizes and ultimately a set of double tickets to the once in a lifetime Stimorol See What Unfolds Music Experience.
