**To whom it may concern:**

We have worked with Grapevine Communication for the last 2 years on the 'Standard Bank Rocking Future Roadshow' & 'I Can B' Awards. We recommend their services to all that are looking for a PR company that knows their way around roadshow PR as well as creating a brand. The value for money has been astonishing and we are firm believers in their capabilities.

We use Grapevine Communications in all our projects and always pitch their services to our clients as an added value. We especially appreciate the way in which they work and find their retainer billing most rewarding. Not once have we had the situation where we were told, 'this is not quoted on' when they commit to a project they do it 100%.

We have always had a dedicated person working on our projects and the monthly feedback meetings and full media reports have been extremely comprehensive and of great value to us as the event organizers and to our clients.

For any more information regarding our relationship with Grapevine Communications please do not hesitate to contact me.

Regards

*Kay Vee Cheytanov*
