25th March 2015

I first approached Grapevine for assistance in October 2010. The wellness industry had been flooded with products of ill repute which are resulting in many casualties.

Grapevine helped me differentiate my brand from the rest. With Grapevine's strategic input we were able to position ourselves as the market leaders in wellness and wellness product safety.

This has been a most beneficial position to attain. Marie and her team are constantly coming up with fresh ideas to help us maintain our edge. With Grapevine's input we have realised our dream of being a highly sought after wellness solution.

Regards,

Paula Galvão (B.Pharm) Wits
Chief Executive Officer
Eden Life Wellness Clinic
