**TO WHOM IT MAY CONCERN**

I've had the absolute pleasure of working with Marie Yossava for the last 3 ½ years. Marie's original brief was to create a profile for our Organization and in particular to introduce me to a number of senior editors of major media, so that our Organization could be regarded as an opinion maker whose views on Youth Development and the issues of Unemployment might be heard.

She has done a spectacular job in this regard, and we are now regular contributors various radio and print media. Marie enjoys an excellent standing amongst most of the news media executives and invariably has been able to introduce me. She is highly professional, her turnaround time is quick and she is always available when needed.
