Testimonial for Grapevine Communications

February 3, 2020

Grapevine has been a LEWIS partner for over 10 years. We have initially chosen them as a partner for their high-quality standards. Over the years we've collaborated on various campaigns, including Lexmark and Zebra. They have always been a supportive partner – Marie always takes the time to brainstorm ideas to turn challenges into opportunities for clients. The team also always goes the extra mile to deliver ideas or reports requested on short notice. We really appreciate the collaboration and hope to see many more joint campaigns in the future.
